• DSA OOPs Concepts DBMS Operating Systems Computer Networks

INTERNSHIP

Summer Internship "Python with Django"

June 2025 – July 2025

Role – Software Developer

- Learned backend development using Django and integrated with frontend (HTML, CSS, JavaScript, Bootstrap).
- Created a Q&A platform with authentication, search, and voting features.

PROJECTS

Online Book Store Website [↗](#)

- Developed a fully functional online book store using **HTML**, **CSS**, **Bootstrap**, **JavaScript**, and **Python Django**.
- Implemented secure **user authentication** for login and account management.
- Integrated **card payment gateway** for seamless online transactions.
- Designed a **responsive UI** for mobile and desktop compatibility.
- Enabled users to browse, search, and purchase books efficiently.
- Created an **admin panel** for managing books, categories, and orders.

Healthcare AI Chatbot [↗](#)

- Built an AI chatbot for healthcare consultations.
- Implemented symptom-based disease prediction using AI.
- Provided medical recommendations to patients.
- Developed using HTML, CSS, and JavaScript.

To Do List App [\[Live Demo\]](#) [\[GitHub\]](#)

- A feature-rich task management application with intuitive UI for organizing daily activities.
- Supports task creation, editing, deletion, and priority level assignment.
- Added due dates and local storage for persistent data across sessions.
- Built using HTML, CSS, and JavaScript.

Music Player [\[Live Demo\]](#) [\[GitHub\]](#)

- Developed a responsive web-based music player with user-friendly interface.
- Features include play, pause, next/previous track, and progress tracking.
- Integrated playlist support for smooth music management.
- Built using HTML, CSS, and JavaScript.

TECHNICAL SKILLS

Languages: Python, C, C++, SQL

Web Development: Django, HTML5, CSS3, Bootstrap, JavaScript

Databases: MySQL, SQLite

Tools: VS Code, PyCharm, GitHub

CODING PLATFORMS

- Solved 200+ problems on LeetCode [↗](#)
